

CUT & CARRY SAW

DFM'S Cut & Carry Saw (CFB11) cuts up to a 11" tree and features the TS3 cutting system. The TS3 cutting system guarantees maximum productivity and a low operating cost. The CFB11 also comes with features that reduce maintenance like cushioned cylinders and 1.5" pivot pins. The CFB11's easy plug & play controls make this feller buncher ready for work upon delivery. The CFB11 is an excellent tool for forestry tree cutting where space is limited and vegetation needs to be preserved.

FEATURES

- High Speed Cutting Disc
- Up to a 11" Diameter Cutting Capability
- Cushioned Cylinders
- Requires 18-45 gpm Hydraulic System Plug & Play Controls
- Increased Tilt-Back Angle
